PIPETMAN® DIAMOND Tips are designed to fit PIPETMAN® perfectly and guarantee maximum accuracy and precision in conjunction with your Gilson pipette.

PIPETMAN® EXPERT Tips can be used with most leading pipette brands.

*Sterility Assurance Level SAL (ISO 11137): quantitative value to assure sterility. SAL 10⁻⁶: probability of 1 in 1.000.000 of finding a non-sterile unit.

**Autoclavable: tips are fully autoclavable except gel loading tips. Autoclaving does not destroy traces of DNA and RNases. Sterile not filtered PIPETMAN DIAMOND Tips and Sterilized not filtered PIPETMAN EXPERT tips are autoclavable.

TOWERPACK Tips are autoclavable, but the plastic wrap and the tray of the TOWERPACK are not. We recommend to place the racks in the tip boxes before autoclaving.

Empty reload boxes and racks are available for RELOAD, BLISTER REFILL, TOWERPACK, ECOPACK, EASYPACK packaging options.
